	Ludger Timmen: <i>Results from 6 years measurements with FG5-220 in Fennoscandia</i>	20 min
	Mirjam Bilker-Koivula: <i>Absolute gravity measurements by the FGI in 2008 and an update on absolute gravity time series in Finland</i>	20 min
	<b>Social dinner 19-?</b>	

8.00	Jürgen Müller: <i>Mass movements observed by GRACE</i>	20 min
8.30	Hannu Routsalainen: <i>Geodynamics with the NSWT tilt meter in Lohja, Finland</i>	20 min
8.50	Tõnis Oja: <i>Status of the gravity network in Estonia, new absolute measurements by FGI and the nonlinear vertical gradient problem</i>	20 min
	<b>Break</b>	
	<b>SSG: Supplemental installations at AG sites.</b> Björn Ragnvald + all	
9.30	Herbert Wilmes: <i>Gravity reference stations maintained by BKG.</i>	20 min
9.50	Jakko Mäkinen:	20 min
10.10	Björn Ragnvald Petersen:	20 min
10.30	Discussion	
	Short break	
	<b>Business matter</b>	
10.50	Report from the Presidium. Martin	
11.00	Jonas Ågren: <i>NKG2005LU revisited</i>	20 min
11.20	Martin Lidberg: <i>On stability in GPS time series, and its impact on velocity estimation</i>	10 min
11.30	<i>New gravity system in Finland, Jaakko</i>	
	<i>The need for a new gravity system in Sweden? Mikael Lilje</i>	
	Situation in other countries + discussion. All	
12.00	<b>Lunch</b>	
12.45	Update on BKG/BGI AG database, and the AG working group, Herbert Wilmes + all	20 min
13.05	The absolute gravity plan. Discussion on how we proceed and what we plan for the future! All	
13.45	The Fennoscandian Land Uplift Gravity Lines - status report on Scientific publication, and FGI publication; Jaakko et al	
	Poster at EGU2009, Jaakko + all	
	Contribution to COST ES0701?! All	
	Information on COST GIA training school in Gävle	
	<b>Field campaign planning</b>	
	Planning of the AG field campaigns 2009.	
	<b>Next meeting</b> (proposal: 9-10 March 2010 in Finland)	
15.00	<b>End of meeting</b>
